INTRODUCING GRACE MINISTRIES IN ACTION

Grace Ministries in Action (GMA) is a Christian organization that seeks to build and train mature disciples of Christ and to support mercy projects that will increase the church's opportunity to share the love and grace of God with a lost world desperately in need of hope. Our goal is not to duplicate the work that others are doing but rather to partner with existing Christian ministries where we can help in unique ways. Our priorities focus on Christian leadership training and on special projects that create opportunities for sharing the gospel. We seek to do this in strategic places outside the United States, with an emphasis upon the Middle East and North Africa. Presently, we serve as a partner organization with BEE World (Biblical Education by Extension) in helping to train and equip Arabic speaking believers in the Middle East and North Africa using a curriculum of courses that have been translated into Arabic. We are also the primary sponsoring ministry for the clinic of the Grace Medical Ministry of Syria.

Special Project: The Grace Medical Ministry of Syria

The war in Syria has been raging for the past eight years, and still there is no end in sight. This has resulted in one of the greatest humanitarian crises since World War II. In addition to the millions of refugees living in surrounding countries, tens of thousands of internally displaced Syrian people (IDPs) are still living within the Syrian borders. These are people that have had to leave their homes and flee to other parts of the country. They are destitute, without adequate living conditions (food and shelter), and are in desperate need of medical help. In Nov 2017, Dr. Paul Tanner partnered with Dr. George of Syria to establish the Grace Medical Ministry clinic in western Syria to minister to both Christian and non-Christian refugees. The clinic is led by four Syrian doctors working together with Christians from a local church. The clinic is currently operating on a monthly budget of \$2000, and is in need of additional funding for 2020.
